

About Us

About Us Eleven years ago The Classic Window Company was set up with a small team of just four partners and two vans. Today that team has now grown to 17 staff members, eight vans, office, workshop with a showroom of over 4000 sq ft and a client list that stretches across the South of England. Our clients stretch from the highly prestigious households to the average terrace home. More importantly each individual client, whether residential or commercial, is treated with the same care and diligence and excellent standards of service. The management are proud of the fact that the company is regarded as a family business even though the partners are not related. We have four family members working for us. But all our team endeavour to give you a truly personal service.

Our Products

- Traditional Sash to Contemporary Sash Windows - you choose the style
- Security: A wide variety of locks available
- Glazing: From traditional designs to modern acoustic laminate glass, reducing noise from outside.
- Timber: The intricate mouldings and beading of natural wood cannot be replicated by modern window manufacturers
- Materials are graded soft or hardwoods of the highest quality
- Timber casement windows, French doors or external doors are also available

Recommendations Over the years we have serviced hundreds of happy customers. Is it our aim to please and to ensure that you receive complete satisfaction from both our products and our service. We are not salesmen, we are craftsmen, and we pride ourselves on that.

Here at The Classic Window Company we are passionate about Traditional Windows and Doors. The values put on the manufacture of joinery in the past is almost lost today with most products falling short in design and attention to detail while missing the simple appreciation of the raw material by a mile. We believe in preserving original windows and doors using sympathetic methods and by utilising some modern technology to introduce a method of sealing against unwanted draughts. Where windows are missing or irredeemable we manufacture new to a high standard replicating original details. In today's climate of change we are all very much aware of the need to reduce waste and you can maximise on this in two ways. By keeping your original windows you are not wasting energy and resources making new ones and by improving the efficiency of the original windows a vast improvement can be made in reducing the amount of energy you use to heat your home. When your windows have had "The Classic Window Treatment" you can look forward to a warmer home with less energy consumption, a cleaner home due to a reduction in airborne particulates passing through your windows and a quieter home because the amount of noise ingress will be reduced.

Welcome to The Classic Window Company
